

2020-2021 Reopening FAQs

We expect our plans will change before the start of school. We're frequently receiving new information and developing protocols and expectations for our students and staff.

As always, the safety of our students and staff is our #1 priority, and we'll share more specific details and guidelines as they're finalized.

Class Size: We expect class sizes will be smaller because some families will choose full-time remote instruction. At this time, we do not have the number of students in each class but we will let you know once we get closer to September 1st.

Face Coverings or Masks: All staff and students are required to wear a face covering or mask while inside the school building. Wearing a face mask is most important when students and staff cannot maintain 6 feet of distance between each other.

Handwashing: Students and staff will be encouraged to use soap and water for handwashing. To supplement handwashing, hand sanitizer stations will be stationed throughout the building. Refillable hand sanitizer bottles will be available in every classroom.

Cleaning: Our school will be deep cleaned and disinfected every night. Updated cleaning protocol focuses on disinfecting high-touch in the morning, and again in the afternoon, specifically for the purpose of preventing spread of disease.

Transportation: We are prioritizing district-provided transportation for families who have no other option to get to school. If you are able, please find alternative transportation for your student(s). Each bus will limit 48 students and students are required to wear masks.

Technology: Every student (K-5) will be assigned a digital device for the 2020-2021 school year. Devices will be issued at the start of the school year.
